

Sorting solutions

Sorting solutions for Supply Chain & Internal Logistics

Arco builds complete material handling installations that fully automatically sort packages, boxes, envelopes, crates and bags on sorting lines with many hundreds of discharge points.

ARCO supplies fast and secure solutions that address all kinds of sorting challenges faced by companies in the logistics industry. Our sorting solutions include:

Crossbelt sorter

- Up to 12.000 packages per hour
- Modular design
- Different configurations possible for the outputs

Zipp sorter

- Up to 5.000 packages per hour
- Sort in the flow
- Robust and solid

Diverter

- Up to 3.500 packages per hour
- Sort in the flow
- Easy to expand due the modular design

Transfer unit

- Up to 1.200 packages per hour
- Packages are always transported in a stable way
- Keeps the system compact

Ask our experts about the possibilities for your application and see what our machine can do for you.

Benefits

Return on investment

- Easy to minimize operators

Production capacity

- Our sorting systems are faster than the fastest operator in determining which product needs to go where. Our integrated sorting systems guarantee increased production capacity

Sustainability

- All our sorting solutions are manufactured from sustainable materials and require little maintenance

Careful product handling

- All our sorting solutions keep product damage to a minimum. The systems are adapted to the products to be processed and ensure that items do not become damaged

Optimal product flow control

- Automated processes not only accelerate product flow, but they also make it possible to monitor and improve the flow with the help of our smart software

24/7 Service

Our excellent service ensures that your installations are always operational. ARCO's service commitment goes beyond designing, building, and installing machines and installations. With our team of service technicians and service vans, we are committed to ensuring continuity for every customer. We offer a range of services – from our Service Level Agreements (SLA) to spare parts, maintenance, repair and 24-hour emergency services – that are designed to help keep your organization up and running.
