

Packing

## Packing solutions

### Packing solutions for Supply Chain & Internal Logistics

ARCO has been an expert in a wide range of packaging solutions for many years. In the Logistics sector, the automation of box erection and sealing can be a huge time-saver. Our packaging solutions are designed to facilitate that process.

Our packing solutions include:

#### Box sealer

- It is possible to tape many different sizes of boxes
- The dimensions of the boxes can be determined manually or automatically
- A carton sealer from ARCO can be integrated into almost any production environment

#### Box erector

- Setup time from one box size to another is between one and two minutes
- The box erector not only sets up the box, but also takes care of the taping of the box
- It is possible to set up many different sizes of boxes

#### Box on demand

- Lower ecological footprint thanks to less packaging material and more efficient transport
- With less storage of all kinds of packaging material, you free up more warehouse space and working capital for other things
- Smaller package means less material and lower packaging costs

Ask our experts about the possibilities for your application and see what our machine can do for you.

# Benefits

## Automated process

- Products no longer need to be packaged by operators. A fully automated process collects the products, assembles the boxes, places the products in the boxes, and automatically scans and seals the boxes

## Packaging solutions for a variety of dimensions

- We offer a range of packaging solutions – from boxes to trays and from film to sealing solutions. So, no matter how big or small the product, we will find the right solution

## No product deformation

- The packaging and sealing solutions are designed in such a way that the products to be packaged do not become deformed or damaged

## Simple integration

- Our packaging solutions are easy to integrate into various production lines and at different positions within these production lines

## 24/7 Service

Our excellent service ensures that your installations are always operational. ARCO's service commitment goes beyond designing, building, and installing machines and installations. With our team of service technicians and service vans, we are committed to ensuring continuity for every customer. We offer a range of services – from our Service Level Agreements (SLA) to spare parts, maintenance, repair and 24-hour emergency services – that are designed to help keep your organization up and running.
